Christian Education Season

August 7 – September 25

What images come to mind when you hear the words Christian education? Are your first thoughts of children in classrooms studying the Bible?

For many of us the Sunday school is the primary place that we think of when we consider what it means to provide Christian education. Christian Education occurs in every place and at all time in the life of the church.

Christian education also does not happen quickly. Christian education is not something we do once as children—then when we get older, we've simply got it. Christian education is a lifelong process of learning, believing, growing, and serving.

Christian education is a never-ending process that is enabled in the Christian community, as Christians continue to study, worship, fellowship, and serve together. It is just as important to continue as an adult

The lessons of Christian education make it possible for us to practice love and to live as children of God. How well we—children, youth, or adults—learn those lessons day by day will determine what kind of church we are Sunday by Sunday and throughout the week. Sunday school starts at 9:30 a.m. Would love to see you there! *Pastor Kristi*
